

Meeting Report

Meeting Details

- **Meeting Title:** Week 4 Group Meeting
- **Date:** 01/31/2024
- **Time:** 3-4 PM
- **Location:** Google Meets
- **Attendees:** Taj Poulsen, Oliver Britos, Preston Little, Tyler Hilbig

Agenda

1. Announcements:

- Adding Professor Burt to our Github (Someone already added GTG!)
- Future submissions everything on Github?
- (Unit Tests Section) Create a spreadsheet that lists the unit tests in row/column form. Give each unit test a name, short description, the reference to the appropriate use case, inputs, expected outputs, and how you know whether the test succeeded or failed.

2. Project Overview:

- What are the goals and objectives of the project?

3. Group Accountability:

- How are you doing with your assignment?
- How can we help? (Questions/Clarifications)

4. Objectives for next time:

- Finish our tasks before Monday!

Minutes of the Meeting

Agenda Item 1

Discussion:

[Summary of the discussion]

- Taj: Load from location to accumulator variable for Load/Store function. Create an Excel page and upload it to GitHub so the team can upload their unit test logs.
- Oliver: Created the layout for our program. Will continue working on GUI

- Tyler: Using a dictionary to update dictionary to insert word. Iterating word +1 because we are moving down.
- Preston: Will get started with the project starting tonight.

Action Items:

- Taj: Excel spreadsheet, create load/store operations, add test for Load/Store operation.
- Oliver: Create Control operations, accumulator/register, add Test for Control operation.
- Tyler: Create README.txt, I/O operation, and tests
- Preston: Create arithmetic operations, Create Design Document, and tests.

Next Meeting
